[Portfolio](#)

I am a self-taught React JS developer. I can translate designs and wireframes into high-quality and responsive React JS code. I am skilled in using UI frameworks such as Ant Design, Material UI and also good at building custom reusable components for better User Experience.

Work Experience

Web Developer (E-Commerce)

Bottle Technology Pvt. Ltd

Dec 28,2020 - Apr 28,2021 (Internship)

- Created About Us page, Carousel, and Privacy Page and rendered them dynamically using Redux, Redux-Saga, RESTful API's, and Ant Design.
- Worked on UI design of Admin Panel to send, edit, save, display, add, delete data from admin section to DB using RESTful API so that it can be fetched and displayed on the Browser. Redux, Redux-Saga, RESTful API's, Ant Design, and React Quill were used.

Data Entry

Cloud Factory

Oct 2018 - June 2020

- Data Entry Job
- Team Lead of Team Thaxaina
